LAB PAPER

QUESTION # 01

Promotional Poster (Design Sprint 2026)

We design a promotional poster to advertise the event using tools like Canva. We use elements like bold typography, icons, shapes, and images to make it attractive. Design principles such as balance, contrast, and hierarchy are applied to organize content. Bright colors and clear layout help deliver the message effectively.

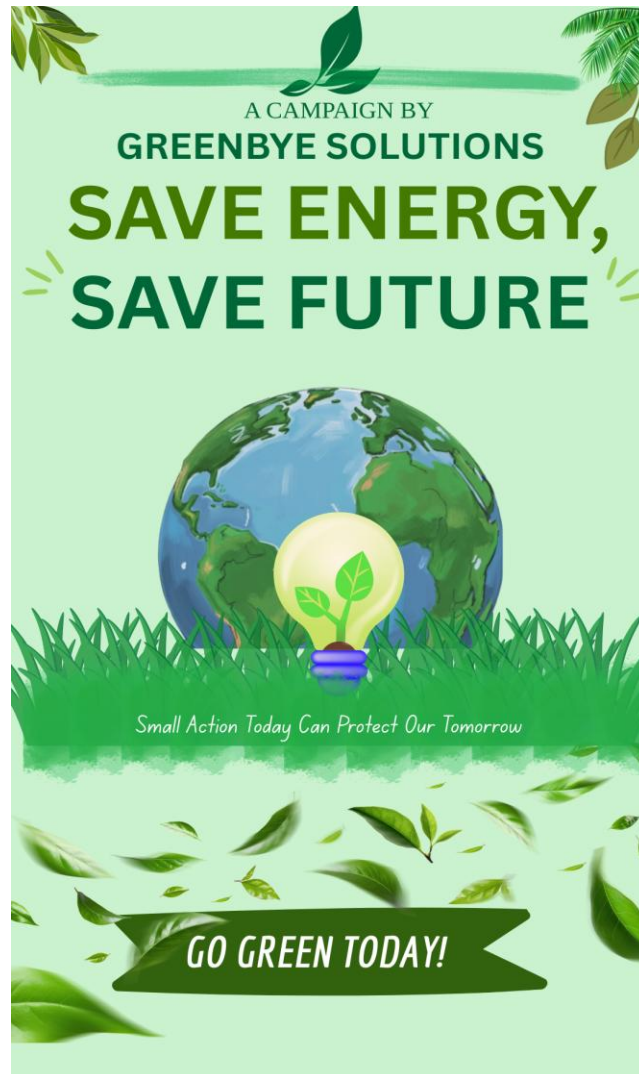

QUESTION # 02

Logo (Creative Tech Society)

We create a logo to represent creativity and technology using simple shapes and text in Canva. Elements like symbols (bulb, circuit), clean fonts, and minimal colors are used. Principles like simplicity, alignment, and scalability make the logo professional. The design should be unique, meaningful, and easy to recognize.

QUESTION # 03

Campaign Poster (Save Energy, Save Future)

We design a campaign poster to spread awareness about energy saving using eco-friendly visuals in Canva.

Elements include green color scheme, icons (leaf, bulb, earth), and readable text. Principles like balance, clarity, and emphasis ensure the message is clear. The poster should be informative, attractive, and motivational.
